

Pre-Procedure Verification of COVID Vaccine Status

Effective 07/14/21

Note well: Confirmation of vaccine status should occur as soon as possible to allow for COVID testing 3 days prior to procedure if needed

***Definition of Fully Vaccinated:**
14 days post second Pfizer or Moderna dose
14 days post Johnson & Johnson single dose

Pre-operative COVID-19 testing should NOT be performed on any patient with a positive test in the past 90 days.

It will be assumed that patients with a positive test will have had their elective surgery POSTPONED FOR AT LEAST 10 DAYS

Before re-scheduling, screen for subsequent development of COVID symptoms and date of onset Determine that patient is at least 10 days beyond symptom onset and at least 24 hours without fever and resolving symptoms.
