

Miscellaneous Tests, New Process for PRISM Users

Miscellaneous Tests Orders, New Process for PRISM Users

As of 4/11/2018, the process for ordering Miscellaneous Lab Tests will be modified to be more user-friendly, requiring less information from the ordering clinician.

Currently, there is a single order code, MIS, *Miscellaneous Test*, and it requires the user to enter the following information: 1. Test Name, 2. CPT Code, 3. Tube Type, 4. Transport Temp, and 5. Performing Lab.

The new process will consist of two order codes: MIS, which will become *Miscellaneous Test, Mayo*, and a new code, MISNM1, *Miscellaneous Test, Non Mayo*.

When selecting the order code for a Miscellaneous Test performed at Mayo (MIS), you only need to enter the Mayo Test ID. A hyperlink to Mayo Test Catalog, where the Test ID can be found, is available as you order .

Miscellaneous Test, Mayo
 Expected-2/20/2018 Approximate, Expires-2/20/2019, Routine, Lab Collect

Process Inst.: This order code is for tests sent to Mayo Medical Laboratories (performed by Mayo or referred out by Mayo) and is NOT available STAT. For assistance, call Lab Customer Service at 7-5121. Tests greater than \$500 are subject to review by a Pathologist.

When selecting the order code for a Miscellaneous Test performed at a Non Mayo Lab (MISNM1), type in the name of the test you wish to order, the reference lab you wish to send the specimen to, and the weblink (website address) of the reference lab. Print out and complete the requisition form from the reference lab and the Alternative Lab Test form (Reference Link 2 below). Fax both completed forms to Specimen Receiving at 847-2358.

Miscellaneous Test, Non Mayo
 P Expected-2/20/2018 Approximate, Expires-2/20/2019, Routine, Lab Collect

Process Inst.: *This test needs to be ordered 24 hrs in advance. A requisition from the Reference Lab AND a Special Send out Form are REQUIRED. For assistance, call Lab Customer Service at 7-5121. Tests greater than \$500 are subject to review by a Pathologist.*

In addition, a PRISM order panel was created, Miscellaneous Labs, which includes both options:

Miscellaneous Labs

Miscellaneous Test, Mayo
 Expected-S Approximate, Lab Collect

Miscellaneous Test, Non Mayo
 Expected-S Approximate, Lab Collect

Because referred tests are constantly updated and changing, the practice of saving miscellaneous tests with the defaults prepopulated, referred to as “hard-coding”, has been discontinued.

If you have any questions regarding these changes please contact Lynn Bryan (Lynn.Bryan@uvmhealth.org).
